TEN INCHES OF SNOW

Altoona, Pa., Oct. 12.—Following a drizzling rain yesterday, a cold wave last night turned to snow. At Cresson, Gallitzin and other towns, in the mountains west of here, an inch of snow fell. Even in Altoona there was a light fall. The cold is increasing and a freezing is anticipated tonight.

SNOW IN MINNESOTA.

First Fall of Year in Northeastern Part of State.

Duluth, Minn., Oct., 12.—Snow fell Tuesday afternoon for the first time this fall in northeastern Minnesota. The snowfall was light in Duluth and mixed with rain, but on the Mesaba and the Vermillion ranges there was a heavy fall

PAWNBROKER FAILED TO IDENTIFY HIM

Berkman of Boston Said the Physician Looked Somewhat Like Purchaser of Suit Case in Which the Body Was Found.

Boston, Oct. 12 .- The police were advised today that Berkman, the pawn-broker who went to New York to try to identify the Boston physician, whose photograph Berkman thought resembled the man who bought the suit case in which the body of a girl who was found off Winthrop Beach recently, was un-able to connect him with the purchaser, Berkman said the man looked like his customer, but he was satisfied he was not the man,

PROSPERITY AND DANGER. Pointed Out at Bankers' Convention in Washington.

Washington, Oct. 12,-There prevailed in the important speeches before the American Bankers' Association convention here yesterday the sentiment that financial legislation is necessary. Thirty-three hundred bankers applauded Sceretary Shaw to the echo when he long of Mr. and Mrs. Frank S. Clark. Secretary Shaw to the echo when he concluded a lengthy address, the burden the latter a sister of the bride, yesters the joke had gone far enough, and husperity of the country contrasted with a monetary system which is inflexible and liable thereby to bring disaster at any crucial time. Frank A. Vanderlip of the National City Bank of New York, cessful teacher in the public schools was committed on January 19, being a system and captain Cowdray is a veteran deliber to day of Mortheld, to get the wherewithal to pay. He borrowed the money, and on its payment today, was released from custody. Sheehan decided that the joke had gone far enough, and hustled about through his attorneys, Plumley of Northfield, to get the wherewithal to pay. He borrowed the money, and on its payment today, was released from custody. Sheehan decided that the joke had gone far enough, and hustled about through his attorneys, Plumley of Northfield, to get the wherewithal to pay. THE EVILS OF BOSSISM

So Armitage Mathews of New Subject of Principal Address

The work of the last day of the meeting of the Vermont Federation of Women's Clubs was taken up this mera-

Women's Clubs was taken up this merning at 9:30, there being about 50 delegates present when Miss Clark called the meeting to order.

Prayer was offered by the Rev. W. A. Kinzie of the Baptist church in this city. A pleasing vocal solo was rendered by Miss Lilla Morse, accompanied by Miss Ivis Averill.

Miss Clark then presented to the assembled club women Mrs. Walter Stokes Irons, president of the Rhode Island Federation. Mrs. Irons gave a short talk on the work of the Federation in Rhode Island. She told of the difficulties in getting a child labor law passed, and how after they had succeeded in getting a good bill into the legislature it was cut down and amended until the bill which was at last passed was but a ghost of the first draft. She closed by congratulating the Vermont Federation for the fine work it had done during the past year, and asked them to

system must be changed before we can secure pure government. Mr. Dana told how the boss does his work. He has an army of people who do his bidding. He controls them because he controls their bread and butter. All appointments to and removal from office in some sections are controlled by political bosses. If one of the employees in a department controlled by a "boss" does not vote as he is instructed he loses

his position. Mr. Dana told how these political rings bail out men who are arrested, how they get young men out on proba-tion and get cases nol prossed; then the men whom they have helped have to vote as they tell them to. There are between 400,000 and 450,000 people in the control of these rings, representing salaries of not only one or two millions to state, but \$300,000,000. The way these rings put a man in office is by having their tools pad the nominating caucus. Once a candidate is nominated by the party of the bo

expected he finds himself without employment.

These bosses control state legislatures, they say what bills shall be passed and what shall not. They demand money of corporations and insur-ance companies and if they refuse it they find at the next legislature a law passed to do them some injury. Money contributed by these corporations is con-tinually used in national, state and municipal elections, but it is hardly ever "Where did that money come from?" Mr. Dana gave many instances of the effects of the political boss and the harm done by him, and also gave instances of political scandals which had been found out and never prosecuted. The recent scandal in the post office department would have been hushed up court at noon toda. This afternoon the arguments were made, and it is expected that the case will go to the jury to-night.

had it not been for a very competent chief executive. He told how recently in Philadelphia the political bosses had been onsted by Mayor Weaver's Pleasant Social Feature of the State simply putting in office several honest men. The bosses were shut out en-

Mr. Dana stated that the women were the persons who could control the passage of a national civil service law, which would establish a merit system. He urged them to work earnestly to get large attendance, the spacious room be-the Vermont legislature to pass a merit ing filled with the visiting ladies and system civil service law.

A resolution was adopted thanking Mr. Dana for his address and another that every women should work for such a law at the next Vermont legislature.
A short talk was given by Miss Marion
C. Nichols, assistant secretary of the

Massachusetts Civil Service League. Miss Nichols told of the corrupt condition which she found in the state prison at Windsor and of the incompetency of the heads of the institu-She thought this should be a field for all club women to look into our state institutions.

The reports of several clubs were then heard and the session adjourned until this afternoon.

of the state federation was called to order at 2:30 yesterday afternoon. Directly after being called to order and the committee notices having been given. Mrs. Richard Bradley favored the ladies with a delightful vocal solo. The reports of the committees were then called for and the first to be given was that of the Educational Committee, by Mrs. J. W. Sault of St. Johnsbury. Mrs. Sault denounced the present system of the schools in the rural districts, saying that the demand for teachers in the thinly settled communities greatly exceeded the supply because of the extremely low salaries paid in district schools. Mrs. Sault said that a penny saving system, that had been tried in the public schools of Bellows Falls and Lyndonville, had met with astonishing results.

Miss Delia I. Griffin told of the work of the Audubon society in putting a stop to the killing of song birds to such an extent that almost no real birds are at present to be found in the millinery stores, most of the present supply being manufactured. The Vermont branch of the Audubon society was formed in Brat-tleboro in 1901, and now has eleven

The report of Mrs. C. C. Fitts of Brattleboro, chairman of the committee on state institutions, was next read. It was greatly hoped, said the speaker, that a law might be enacted at the 1904 session of the Vermont legislature where by there would be provision made for a woman to be a member of the visiting committee to the state institutions, where girls and women were confined. Mrs. Fitts also stated that it is the desire of the committee to induce the legislature to make an appropriation for a state institution for the deaf and blind. The recording secretary read the re-port of the library committee, which stated that there are 35 towns in Ver-

mont which possess free public libraries and 74 towns with no library of any description. Thanks to the work of the federation an appropriation was secured at the last legislature by which any town is entitled to \$100 for the purpose

of St. Johnsbury. She stated that four papers had been contributed during the past year; that the committee had sent out 50 papers to different clubs on application

ommittee was given by Mrs. Rebecca P. Fairbanks, in the absence of Mrs. Noyes, the chairman. The committee reported that the campaign against child labor had ben crowned with success, although it was impossible to state just how much influence the Federation had had on the passage of the child labor clubs had been it was also impossible

The federation president then introduced Dr. Holton, secretary of the state board of health, who spoke on the work of the board of health in stopping the sale of adulterated foods. He also spoke in political control he is pretty sure of election. If a man in the pay of a political boss fails to do as he is sion and urged the Vermont women to follow the example of some of the west ern states and Massachusetts in forming anti-tuberculosis societies in each city and town. He said the state board of health would gladly send any instructions as to starting these societies

A vote of thanks was given Dr. Holton for his valuable talk and a resolu tion was also adopted asking the Vermont delegation to Congress to labor in behalf of the national pure food law. A resolution was also passed thanking Miss Cowles for her faithful work dur ing the past year as corresponding secretary. The afternoon session closed with the reading by Mrs. O. H. Hale of a paper by Miss Foster of the Massachusetts State Federation Pure Food Committee.

Convention Last Evening.

The reception tendered the visiting lelegates by the women's clubs of this city in the rooms of the Vincitia club from 8 until 10 last evening was a most pleasant occasion. There was a very hib women and their husbands from this city. The rooms were very prettily delegate from the Daughters of Vermont decorated with cut flowers and potted in Massachusetts. plants. A concert was given during the ours of the reception by Gilbertson's

The receiving committee was compos of Mrs. W. F. Shepard us hostess, representing the four clubs of this city the state president, Miss Susan E. Clark of Brattleboro, Mrs. Walter Stokes Irons, president of the Rhode Island Federation, and Miss Helen Williston Smith state chairman of Forestry, as guests of honor, Mrs. Rebecca P. Fairbanks of St. Johnsbury, state vice president, Mrs. The reports of several clubs were then early and the session adjourned until his afternoon.

Yesterday Afternoon's Session.

The afternoon session of the meeting of the meeting of the decorating committee composed of the meeting of

WOULD GIVE A LOCATION

The State Tuberculosis Sanitarium In Barre.

VOTES THE CITY COUNCIL

Health Officer Joe W. Jackson Went Before Commission With Proposition from the City of

Important action was taken by the Important action was taken by the city council, in special session last night, toward securing the location of the proposed state tuberculosis sanitarium in Barre. The council voted to authorize the secretary of the local board of health to offer a site on the city property in the northeast part of Barre for the hospital, subject to the ratification of the citizens.

As was reported in yesterday's paper,

of the citizens.

As was reported in yesterday's paper, Dr. H. D. Holton of the State Tuberculosis Commission yesterday visited possible locations in company with Dr. Joe W. Jackson. The city land was the one considered chiefly. The plot contains nearly forty acres and lies along the northeast side of Merchant and the continuation of Brook street, opposite the city farm buildings and Hope cemetery. It is bounded on the south by Spring street, the unoccupied land of Duffy & Mead and on the east by the property of George Cassie. The land is now used entirely as pasturage.

All the members of the council were present last evening when Dr. Jackson explained the proposition. He said that while there is a large number of tuber-culosis cases in Barre now, there will, in ten years, be as many in Barre as

decides to locate the sanitarium th secretary of the local board of health be authorized to offer a suitable site for the location of the hospital, subject to the approval of the citizens." The report of the Consumers' League motion was carried unanimously. Alder-ommittee was given by Mrs. Rebecca man Mackenzie also wanted the Tuberculosis Commission, when it visits Barre, to take a tour of the granite sheds to get an idea of the conditions. Dr. Holton told Dr. Jackson that there

have already been several offers of a There were several minor matters considered by the council before an early adjournment. The chairman of the street committee was authorized to instruct the property owners on Grant ave-nue to secure a deed and have a three-

rod street before a sewer can be laid.

Albert Dodge, through the city clerk, called to the attention of the council that Joe Ossola is setting a house on a roadway between No. Main and North Seminary streets and that the passage way had been used by the public for fifty years, to his knowledge. Mr. Dodge also stated that an attempt was on made, when the property was in the Thwing family, to close the passageway, but it failed. (Mr. Ossola bought the entire property, roadway and all, but there was no reservation relating to a

roadway.) City Attorney Gordon reported that unless proof can be brought out that the road was intended for public use the road was intended for puone use the council can do nothing. He said that mere use by the public does not dedicate the road to the public. A lease between the city of Barre and John E. and Donald Smith, for a piece

of land in South Barre, for a pumping station, was read and approved, and the mayor signed the lease.

Moore Bros. & Brault were given per mission to heat their granite shed, and at this point the council went into execu-
